Dear _____

There is a care-years education gap in our country and I want you to provide a long-term care education program for those of us who are boomers with aging parents, soon-to-be retirees or young seniors. Long-term care (whether in my own home or in a nursing home) is the single largest out-of-pocket cost I face over 60 and therefore it is a significant risk to my family and me! We need information on this issue as well as guidance and incentives on how to plan for this stage of our lives. We want to do the right thing!

Yours truly, a voting constituent,
